

KYANKUS KARATE

GRADING SYLLABUS

GRADING CRITERIA

Gradings are designed to assess your ability and test your character. Notification of a grading is not an indication that the student is ready for grading just advising that the minimum required period and amount of compulsory classes has been or likely to be acquired by the grading date.

Students not quite ready will be advised to forego the grading until such a time as they are considered ready, grading is strictly at the instructor's discretion.

Students looking for short cuts to belts are advised that they are at the wrong club.

If you're looking for quality tuition leading to a quality black belt you are at the right club and you will know this.

Grading examinations are held every three months for students. In order to pass a grading the student must, not only demonstrate knowledge of the required techniques, but have an excellent attendance and disciplinary record. Students under the age of 8 are not required to perform Kata at their grading.

Gradings take place on a weekend at which students are required to bring the correct uniform, protective equipment, valid licence, course card and lesson stamp card and any other additional items as instructed by Sensei.

Where possible a panel of examiners will conduct the examination.

The criteria for belt promotion are not only how a student performs certain Karate techniques, but also their mental approach, focus and attitude are taken into consideration.

The first few grading tests are not that difficult, however as a student progresses, grading demands increase and they will need to devote more time to their Karate path.

An official class lesson stamp card keeps a record of a student's training.

Each student must attend a pre-grading preparation course prior to each and every grading.

- A minimum of 1 weekend course must be attended between White Belt and Orange Belt.
- A minimum of 1 weekend course must be attended between Orange Belt and Purple Belt
- A minimum of 1 weekend course must be attended between Purple Belt

PRIVATE GRADING COURSES AND PRIVATE GRADINGS

These are available to students that are unable to attend the regular club Grading courses and Grading's.

WEEKEND COURSES

Benefits of attending course:

Have fun and learn new skills

SPORT KARATE TEAM LINKS

Links Karate hold designated sport karate sessions throughout the year. These sessions are run by Sensei Paul Harris; Chief Instructor of Links Karate, EKKA Association Head Coach and EKF Head South East Regional Coach and Sensei Alix Harris; Links Karate Kata Coach, EKKA Association Kata Coach, Existing England Senior Kata A Squad.

The club holds Kata and Kumite B squad, A Squad and International Training Sessions.

Links Karate Squad Selection trials are held on a regular basis.

Links Karate has had major success over many years on the domestic scene in England also competing all round Europe winning many major international events, producing many English and British champions and WKF World and European Medallists.

REFEREE PROGRAM

We provide courses for club students to obtain referee qualifications in Kata and Kumite.

SELF-DEFENSE

Links Karate Self Defense sessions are now part of the Grading Syllabus for all students 14 years+ from 3rd Kyu and above. You will need to obtain the relevant self-defense qualification before you attempt your higher grades as listed below. These sessions will be held within Links Combat Training Sessions.

Students that are under the age of 14, 3rd Kyu and above, when reaching the required age will be required to play catch up on these sessions. Each level requires the student to master the specific defences for different types of attacks as well as training themselves in various punches and kicks and combination defense/attack moves. The students will have to demonstrate their sparring ability and aggression. This is not to develop an aggressive personality in the students, but more to enhance the spirit that is inherent in the close quarter combat ethos of Links Self Defense which will all be demonstrated in a safe environment.

It takes time to develop the specific skills required for each level and the skill set is an extension of the Links Karate syllabus. We feel that in todays world with bullying and unprovoked attacks rife this will give the students awareness by training in specific self defense needs so will now be added to our syllabus.

Mental & Psychological Benefits

*Building a strong sense of self-belief, confidence and self-esteem. This will continue to help you in every aspect of your life as you continue to grow!

*Greater ability to face obstacles and challenges in life

All these skills and benefits will remain with you and continue to help you throughout your lives which is truly priceless.
